

Creative Director: Brian Lee

Designer: Jason Zhao

Topic: Lance Armstrong

Notes:

- Overall, color scheme allows for better hierarchy
- Would like to see the timeline more integrated into the aesthetic of the rest of the website if possible
- Keep year numbers above images consistent (whether it is oriented on its side or horizontal; either orientation should work fine)
- I like the images using text, it breaks the images up with some differing motifs
- Blur to unblur when hovering over “new rules” and “drug tests”
- Otherwise, the website is shaping up! Keep up the good work
