Mockups A

- Desktop
    - Good contrast
    - Nicely paced
    - Indicator of what section you're on with nav bar
    - More color hierarchy - white, black, and yellow
    - Add more refined footer to both desktop and mobile

- Mobile
    - Section of text that feels long, perhaps break up with an image or two
    - Side-scrolling images not initially clear; add indicators that the images scroll to the side

Mockups B
- Desktop
    - Make homepage arrow button more obvious that it is clickable
    - Current tests section feels a little bit dry with just text; can put some generic images, pull quote, or images related to testing in this section to break up some of the text
    - Refine sources page
- Mobile
    - Keep sidescrolling nav bar
