Project Title: Lance Armstrong Website

Because I plan on formatting my website like an interactive timeline, I want to create one very long page with integrated transitions in between (think an Apple product page with seamless transitions between content). To make navigation easier, I will have a navigation bar that scales the side of the webpage so that the reader can skip to whichever sections they are most interested in reading about.

Introduction/Hook: Mention Tour de France doping scandal and impact it has had on discussion around performance-enhancing drugs in competitive sports

Lance Armstrong Early Life: When he got into cycling and started to take it seriously

Early to Late Career Progression: Highlight a few of his most exciting and memorable performances/stats

Doping Allegations, Investigation, and Confession

Changes to Tour de France Drug Tests

State of cycling drug tests today

Sources – this page will just list sources, including the Wikipedia page, as well as other

sources for photography, and any other credits that need to be provided.
